From (Name) Rao Bahadur B. Viswanath, C.I.E., D.Sc., F.A.S.I.,

Designation Director of Agriculture,

Station Madras.

To The Additional Secretary to Government, Development Department.

ASSISTANT SECRETARY TO GOVERNMENT
24 JUN 1944
DEVELOPMENT DEPARTMENT

Enclosures :

No. Roc.A-3.2686/43. dated 21st June 194 4

Sir,

Sub: Agriculture - samples of water and soil - Analysis- Agricultural Research Station, Siruguppa - additional assistant.

...

In connection with the forming a reservoir across Rallavagu and Gandivagu in Markapur taluk, Kurnool district, soil and water samples are being received at the Agricultural Research Station, Siruguppa for analysis from the Public Works Department. The existing three assistants on the station are fully engaged and their hands are quite full and they cannot therefore undertake this additional work of water analysis. The number of samples received has been steadily on the increase and at the present time it has reached a total of 600 and an increase in the number of samples is anticipated in the future. I therefore request that Government may be pleased to sanction the appointment of an additional assistant for the Agricultural Research Station, Siruguppa

for a period of one year from the date of employment.

2. A copy of letter from the Superintending Engineer, Ananthapur is enclosed. The Chief Engineer for Irrigation is in agreement with the views expressed by the Superintending Engineer.

Your obedient servant,

for DIRECTOR OF AGRICULTURE.

n.n.23-6-44.

Copy of letter No.1103 C.E. dated 20-5-44 of the Superintending Engineer, Anantapur Circle to the Chief Engineer, for Irrigation.

....

Ref: Form a reservoir across Rallavagu and Candivagu in Markapur taluk - Kurnool district - soil and water samples-analysis.

N.C Your endorsement No.917/38-C.12 dated 16-3-44 and 917/38-C.14 dated 24-4-44.

...

So long as the investigation for the C.M.F. schemes continue there will be necessity for sending samples of soil to the Agricultural Chemist for about one year from Madanapalli division.

As regards Bellary division observations for analysis of water samples on Tungabhadra channel have to be continued for 2 years during 43-44 an 44-45 as per instructions contained in N.C Chief Engineer's Memo No.3628 G/10/20-8-43. So water and soil samples etc. are being sent ~~to~~ now and will have to be sent in future also. In addition to this, samples for the C.M.F. schemes

also will have to be sent according to necessity.

It is however not likely that any samples will be sent from Kurnool division.

It is desirable to strengthen the staff in the interest of the additional work involved due to the testing of soils and water for G.M.F. schemes which are likely to be increased. As it is not possible to say definitely, for how long this work will continue, it is desirable to obtain the sanction for the additional staff year after year.
